# SERIE DIGITAL

La decorazione avviene direttamente sul vetro, unendo la brillantezza e l'eleganza del cristallo alla totale adattabilità del formato digitale. Questa decorazione si potrà inoltre unire alle tradizionali nostre tecniche manuali (come la foglia oro, arg ecc) per formare un mix di tradizione ed innovazione.

Sarà possibile ottenere qualsiasi tipo di trama, immagine e decoro sul vetro senza porre limiti d'alcun tipo alle esigenze di clienti e progettisti.

L'idea grafica può essere riprodotta sia su pannelli e formelle, sia in versione mosaico. Immagini e decori possono essere realizzati nella più totale libertà nelle proporzioni, colori e dimensioni volute in funzione dell'idea d'arredo che si vuole ottenere.

The decoration is done directly on the glass, joining the brilliance and elegance of crystal glass to the absolute reliability of the digital format. It will also be possible to combine this new decoration technique with our traditional manual decoration techniques (gold or silver leaves, etc.), so as to create a mix of tradition and innovation.

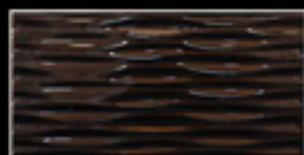

It will be possible to obtain any kind of textures, images and decorations on glass without setting any limits to customers' and designers' requirements.

Graphic projects can be reproduced either on panels and tiles or in mosaic version. Images and decorations can be realized in complete freedom of choice as regards proportions, colours and dimensions, according to your specific interior design project.
