Tribute to Andy Warhol

"La Pop Art è un modo di amare le cose"

Andy Warhol

Nell'anno in cui si è appena conclusa a Milano, nella splendida cornice di Palazzo Reale, la mostra #WARHOL, ORNAMENTA ha voluto tributare al capofila della Pop Art americana questa nuova collezione denominata ARTWORK in cui le superfici di Marble, Brick e Wood vengono reinterpretate enfatizzando, come in una "caricatura", i tratti che contraddistinguono ognuna di esse.

"Pop Art is a way of liking things"

Andy Warhol

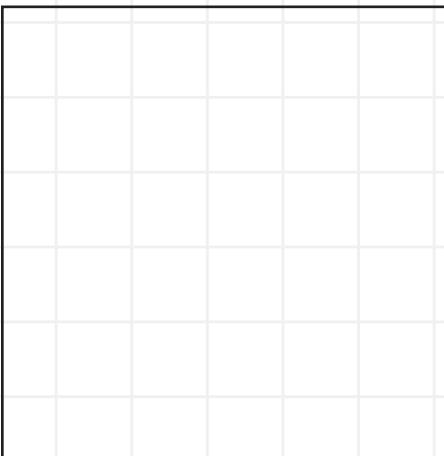

In the year that has just ended in Milan, in the beautiful surroundings of the Palazzo Reale, the exhibition #WARHOL, ORNAMENTA wanted to pay tribute to the leader of American Pop Art with this new collection named ARTWORK in which the surfaces of Marble, Brick and Wood are reinterpreted emphasizing, as in a "caricature", traits that distinguish each of them.

Le caricature di "Artwork" prendono vita su una base bianca di gres porcellanato, il foglio, su cui vengono "caricati" i tratti caratteristici di ogni superficie. Il nero ed i colori sono applicati mediante stampa digitale HD high definition per raggiungere l'obiettivo di avere una molteplicità di moduli e una stesura perfetta, rigida, senza sbavature e al contempo un'alta resistenza. Marble, Brick e Wood possono essere posati "stand-alone", ovvero singolarmente, sia a pavimento che a rivestimento, sfruttando i moduli presenti nel programma per avere diverse varianti di posa, oppure "random", combinandoli insieme a due a due o in un patchwork" totale.

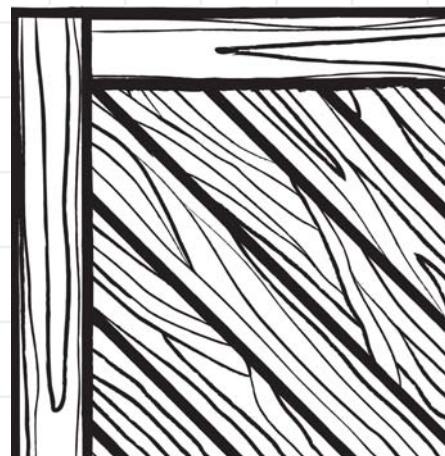

The caricatures of "Artwork" come to life on a white basis of gres porcelain, the paper, on which are "loaded" the characteristic features of each surface. Black and other colours are applied with HD digital printing in order to combine a great variety of modules with a perfect drawing up, without smudgings and high-resistance at the same time. Marble, Brick and Wood can be set "stand-alone" both on wall and on floor, by using the different modules, or "random", by matching themselves together in pairs or by composing a "total patchwork".

Il marmo perde il classico "fotorealismo" da imitazione e le sue venature "disegnate" sono volutamente enfatizzate per darne una rilettura in chiave più contemporanea.
